ASF 1.7 Closed Cell Foam

AMERICAN SPRAY FOAM ASF 1.7 closed-cell foam is a low-viscosity, 1.7 pcf density insulating material. ASF 1.7 is designed to provide significant control of air infiltration along with a high R-value per inch.

AMERICAN SPRAY FOAM is a two-component, light-density, one-to-one by volume spray-applied polyurethane closed-cell foam. ASF 1.7 requires the use of an “A” component (ISO) and a blended “B” component (RESIN), which contains ZERO ozone-depleting blowing agents, catalysts, polyols, and fire-retarding materials. AMERICAN SPRAY FOAM ASF 1.7 is an insulation system designed for use in residential, commercial, and industrial applications. Use in lieu of more traditional forms of insulating materials such as fiberglass, cellulose, or other loose-fill products.

Applications

- Exterior Walls
- Interior Walls
- Vented Attics
- Unvented Attic Assemblies
- Between Floors
- Ceilings
